

CONTENTS

Preface	iii
Contributors	vii
1. Biosensors: Current and Future Prospects	1
2. The Need for Biosensors in the Food Industry and Food Research	13
3. Enzyme Electrodes for Food Analysis	31
4. Biosensors Based on Fluorimetric Fiber-Optic Detection	63
5. Fiber-Optic Biosensors Based on Luminometric Detection	101
6. Whole-Cell and Tissue Sensors	123
7. Piezoelectric Immunosensors and Their Applications in Food Analysis	151
8. Enzyme Thermistors for Food Analysis	173
9. Postcolumn Detection	191
10. The State of the Art	219
Index	253
