

TABLE OF CONTENTS

PREFACE	V
PREFACE TO THE ENGLISH EDITION	VII
CHAPTER 1 / WHAT IS FOOD CONSISTENCY?	1
1.1. Texture and Consistency	1
1.2. Consistency and Taste of Foodstuffs	3
1.3. Classification of Consistency	5
CHAPTER 2 / OBJECTIVE MEASUREMENTS OF CONSISTENCY	7
2.1. Objective Expressions of Consistency	7
2.2. Measurement of Consistency	12
2.2.1. Viscosity	12
2.2.2. Elasticity	19
2.2.3. Measurements of Viscoelasticity	23
2.2.4. Industrial Methods for Measuring Consistency	25
2.2.5. Measurements of Consistency of Powdered Foods	41
CHAPTER 3 / CONSISTENCY OF RESPECTIVE FOODS	50
3.1. Liquid Foods	50
3.1.1. Milk	50
3.1.2. Syrups	57
3.1.3. Juice and Puree prepared from Fruits and Vegetables	62
3.2. Consistency of Gel-Like Foods	68
3.2.1. Starch Gel	69
3.2.2. Pectin Gel	73
3.2.3. Vegetable Gums and Viscous Materials	75
3.2.4. Gelatin	78
3.2.5. Egg White	80
3.2.6. Milk Gel (Consistency of Rennet Milk in the Initial Stage of Coagulation)	80
3.2.7. Elasticity of Rennet Milk	84
3.2.8. Kamaboko (Fish Jelly)	87
3.3. Fibriform Foods	92
3.3.1. Vegetables and Fruits	92
3.3.2. Meats and Meat Products	99

3.4. Cellularform Foods	108
3.4.1. Potato	108
3.4.2. Rice and Boiled Rice	110
3.4.3. Macaroni, Spaghetti, and Udon (Japanese Noodle)	112
3.5. Edible Oils and Fats	114
3.5.1. Plastic Fats	114
3.5.2. Consistency of Ice Cream	128
3.6. Consistency of Powdered Foods	132
3.6.1. Variation of Density of Powdered Foods	133
3.6.2. Coefficient of Internal Friction of Powdered Foods	133
3.6.3. Tapping of Powdered Foods	134
3.6.4. Creep of Powdered Foods	137
3.6.5. Kinematic Properties of Powdered Foods	137
3.6.6. Solidification of Powdered Foods	139
3.6.7. Flowing-Out Properties of Powdered Foods	141
3.7. Consistency of Apparently High-Elastic Foods	142
 CHAPTER 4 / ABNORMAL FLOW PROPERTIES OF FOODSTUFFS	 149
4.1. Dependence of Food Consistency Upon Time	149
4.1.1. Increase of Viscosity of Condensed Milk	149
4.1.2. Effect of Working on the Consistency of Edible Fats	152
4.2. Surface Consistency of Foods	154
4.2.1. Stickiness of Candy	155
4.2.2. Stickiness of Butter	156
 CHAPTER 5 / SENSORY ASSESSMENT OF FIRMNESS	 159
5.1. Psychorheology	159
5.2. Differential Threshold Between Elasticity and Viscosity	159
5.3. Perception of Firmness of Complex Materials	161
5.4. Mechanical Properties and Firmness in Subjective Perception	163
5.5. Relationship Between Psychological Stimulus and Physical Stimulus	168
 CHAPTER 6 / APPLICATION OF CONSISTENCY IN FOOD TECHNOLOGY	 171
6.1. Consistency and Thermal Conductivity	171
6.2. Thermal Conductivity of Non-Newtonian Fluids	173
6.3. Mixing of Non-Newtonian Fluids	174
6.4. Application to Coating	175
6.5. Measurements of Pipe Flow Flux of Non-Newtonian Foods	176
 GENERAL BIBLIOGRAPHY	 179
INDEX OF NAMES	182
INDEX OF SUBJECTS	185
