

CONTENTS

Preface	v
300 Microbiological Methods (General Information)	1
310 Biotin	9
320 Choline	11
330 Folic Acid (AOAC)	13
331 Folic Acid (Free Form)	17
332 Total Folates (Single Enzyme, AOAC Infant Formula)	21
333 Total Folates (Tri-Enzyme)	25
340 Niacin (AOAC)	29
350 Panthenol	33
360 Pantothenic Acid (AOAC)	37
361 Total Pantothenates (AOAC Infant Formula)	41
370 Riboflavin (Vitamin B ₂ , AOAC)	47
380 Thiamine (Vitamin B ₁)	51
390 Tryptophan	55
400 Pyridoxine (Vitamin B ₆ , AOAC)	59
410 Cobalamin (Vitamin B ₁₂ , AOAC)	63
Appendix A (Standard Solutions and Inoculum Broth)	67
Appendix B (Time Factors)	72
Appendix C (Troubleshooting)	73
Appendix D (Assay Reference Guide)	75
Appendix E (Stability and Lability of Vitamins)	77
Appendix F (Measuring Recovery Using a Spiked Sample)	78
Appendix G (Turbidimetric Microbiological Assay Program)	80
Appendix H (Limits of Quantification)	86

[The numbers for each chapter title (e.g., 300, 310, 320) are in-house standard operating procedure numbers and are included only to facilitate cross-referencing.]
