

CONTENTS

Preface	vii
1. Polarisation	1
2. Determination of Sucrose in Molasses	5
3. Determination of Reducing Sugars	9
4. Determination of Ash	23
5. Determination of Water	37
6. Colour Measurement by Absorptiometry	63
7. Analysis of Refined Sugars	74
8. Measurement of <i>pH</i>	74
9. Determination of Inorganic Non-sugars and Trace Elements	102
10. Microbiological Examination of Sugars	135
11. Determination of Raffinose	156
12. Determination of Starch in Raw Sugars	162
13. Determination of Silica	165
14. Determination of Waxes	167
15. Analysis of Sucrose/Glucose/Invert Mixes	169
16. Analysis of Charcoal	172
17. Analysis of Water	183
18. Analysis of Fuel	202
19. Candy Test	214
20. Determination of Brewer's Extract (British System)	218
<i>Index</i>	223
