

CONTENTS

Sugar and Sugar Cane

1	Economic Aspects of the Sugar Industry	3
2	Sugar Cane	12
3	Composition of Cane and Juice	23

Raw Sugar Manufacture and Refining

4	Outline of Process for Manufacturing Raw Cane Sugar	39
5	Extraction of the Juice	45
6	Bagasse and Its Uses	68
7	Purification of the Juice: I clarification reactions and control	80
8	Purification of the Juice: II clarification apparatus and special processes	102
9	Treatment of Mud Waters and Clarified Juice	121
10	Chemical Reagents in Sugar Processes	128
11	Evaporation and Heating, Alfred L. Webre	132
12	The Crystallization of Sugar, Alfred L. Webre	168
13	Crystallization in Motion, Eugene C. Gillett	206
14	Purging, Packing, and Warehousing the Sugar	246
15	Blackstrap Molasses and Edible Syrups	267
16	Keeping and Refining Qualities of Raw Sugar	285
17	Microbiology of Sugar Manufacture and Refining, William L. Owen	305
18	Cane Sugar Refining: I introductory; affination; clarification	320
19	Cane Sugar Refining: II decolorization with adsorbents, Victor R. Deitz and Frank G. Carpenter	342
20	Cane Sugar Refining: III crystallization and finishing	386

Analytical Procedures

21	Polarimetry in Sugar Analysis	401
22	Double-Polarization Methods	442
23	Chemical Methods in Sugar Analysis	448
24	Density and Total Solids Determination	466
25	Determination of <i>Ash</i>	488
26	Hydrogen-Ion Concentration	495
27	Color and Turbidity in Sugar Products	505
28	Sampling and Averaging	526
29	Analysis of the Sugar Cane	539
30	Analysis of the Juice	543
31	Analysis of the Syrup, Mossecuites, and Molasses	552
32	Analysis of Sugars	562
33	Examination of Refined Sugar	567
34	Analysis of Bagasse and Press Coke	583
35	Checking Factory Wastes and Boiler Feed Water for Sugar	592
36	Special Laboratory Reagents	598
37	Special Techniques for Use in Sugar Analysis, Victor R. Deitz and <i>Frank G. Carpenter</i>	605

Chemical Control

38	Definitions and Terms in Sugar Factory Control	619
39	Chemical Control	628
40	Sugar-House Calculations	671
41	Methods of Cane Purchase	679
42	Statistical Treatment of Measurements and Errors, Thomas <i>8. Crumpler</i>	686
	Reference Tables (see list on pp. xv- xvii)	699
	Index	821
