

## CONTENTS

Foreword	vii
Principal Participants	xiii
1. <i>The Occurrence, Manufacture and Properties of Xylitol</i>	1
2. <i>The Value of Xylitol as an Ingredient in Confectionery</i>	11
3. <i>Some Aspects of Food Technology</i>	21
<i>Discussion. Xylitol as a New Ingredient</i>	25
4. <i>Biochemistry of Xylitol</i>	35
5. <i>Tolerance in the Human. Adults and Children</i>	43
6. <i>Biochemical Findings in Exocrine Secretions in Relation to     Peroral Administration of Xylitol</i>	67
<i>Discussion. Biochemical Aspects</i>	103
7. <i>Cariogenic Bacteria</i>	111
8. <i>Behaviour of Xylitol in Isolated Plaque</i>	133
9. <i>Incidence of Clinical and Experimental Caries in Relation to     Microbiological and Biochemical Xylitol-Induced Effects</i>	139
10. <i>Some Aspects of Forthcoming Research on Xylitol</i>	163
<i>Discussion. Dental Aspects</i>	175
Index	187
