

Contents

Preface	iii
Contributors	vii
1. A Background and History of Carbohydrate Polyesters <i>Barry G. Swanson and Casimir C. Akoh</i>	
2. Synthesis of Carbohydrate Fatty Acid Polyesters <i>Casimir C. Akoh</i>	6
3. Enzymatic Synthesis of Carbohydrate Esters <i>Sergio Riva</i>	37
4. Supercritical Fluid Extraction and Chromatography of Sucrose and Methyl Glucose Polyester <i>Troy T. Boutte and Barry G. Swanson</i>	65
5. Patent Literature on Carbohydrate Esters and Polyesters <i>Casimir C. Akoh</i>	95

6. Emulsification Properties of Sugar Esters <i>Yanling Yin, C. E. Walker, and Lynn B. Deffenbaugh</i>	111
7. Sucrose Esters in Baked Products <i>Y. Pomeranz</i>	137
8. Antimicrobial Properties of Sucrose Fatty Acid Esters <i>Douglas L. Marshall and Lloyd B. Bullerman</i>	149
9. Sucrose Polyester, Cholesterol, and Lipoprotein Metabolism <i>Charles J. Glueck</i>	169
10. Digestion and Absorption of Carbohydrate Polyesters <i>Barry G. Swanson, Troy T. Boutte, and Casimir C. Akoh</i>	183
11. Other Fat Substitutes <i>William E. Artz and Steven L. Hansen</i>	197
12. Fat Substitutes in Foods: Growing Demand and Potential Markets <i>Rosanna Mentzer Morrison</i>	237
13. Carbohydrate Polyesters: Regulations and Applications <i>Barry G. Swanson and Casimir C. Akoh</i>	251
Index	261
