

## Contents

Preface to the Second Edition .....	vi
Preface to the First Edition .....	vi
Acknowledgments .....	vii
Introduction .....	viii
1 The Hydrogenation Reaction <i>H.B.W. Patterson</i> .....	1
2 Hydrogenation Process Techniques <i>H.B.W. Patterson</i> .....	33
3 Hydrogenation Using Critical Fluids <i>Jerry W. King and Gary R. List</i> .....	49
4 Hydrogenation Facility <i>H.B.W. Patterson</i> .....	111
5 Hydrogenation <i>H.B.W. Patterson</i> .....	149
6 Isomer Formation During Hydrogenation <i>Albert J. Dijkstra</i> .....	159
7 Catalysts <i>H.B.W. Patterson</i> .....	169
8 Hydrogenation Methods <i>H.B.W. Patterson</i> .....	189
9 Electrocatalytic Hydrogenation of Edible Oils <i>Peter N. Pintauro</i> .....	279
10 Low Trans Hydrogenation <i>Gary R. List and Michael A. Jackson</i> .....	305
11 Safety <i>H.B.W. Patterson</i> .....	315
12 Quality and Control <i>H.B.W. Patterson</i> .....	329
Glossary of Hydrogenation and Related Technical Terms .....	351
References .....	367
Index .....	395
