

CONTENTS

Chapter	Page
I Bacteria	1
II True Fungi	16
III Control of Spoilage Micro-Organisms	26
IV Containers	57
V Outline of Canning Operations	70
VI Sources and Control of Contamination	80
VII Principal Spoilage Organisms in Canned Foods	94
VIII Effects of Heat on Micro-Organisms	110
IX Principles of Canned Food Processing	140
X The Use of Ionising Radiations for Food Preservation	171
XI Types of Spoilage	182
XII Microbiology of Sound Canned Foods	200
XIII Bacterial Food-Poisoning	215
XIV Laboratory Examination of Canned Foods	232
XV Examination of Raw Materials, Plant and Miscellaneous Methods	256
XVI Examination of Cans	267
Appendix	280
Index	283
