## Contents

<i>Foreword</i> Maurice E. Stansby	<i>iii</i>
<i>Preface</i>	<i>v</i>
<b>1 Food From the Sea</b>	<b>1</b>
I. Introduction	1
II. Fish and Shellfish as Food	3
III. Distribution of Fish and Shellfish	8
IV. Market Forms of Fish and Shellfish	15
V. Harvesting Marine Foods	22
VI. The Changing World Fisheries	28
References	30
<b>2 Components of Seafood</b>	<b>32</b>
I. Introduction	32
II. Terminology	32
III. Nutrient Composition	34
V. Sources of Seafood Composition Data	62
VI. Summary	63
References	63
<b>3 Effects of Processing on Nutrients</b>	<b>66</b>
I. Introduction	66
II. Processing Procedures	67
III. Chemical Reactions	73

IV.	Preprocessing on Shipboard	77
V.	Summary	83
	References	84
4	Preprocessing: General Considerations and Preprocessing	85
	I. Introduction	85
	II. Need for Basic Information	88
	III. Processing Fishery Products	89
	IV. Preprocessing of Fishery Products	95
	V. Special Shipboard Operations	103
	References	103
5	Adding and Removing Heat	104
	I. Introduction	104
	II. Heat Processing of Fishery Products	106
	III. Removing Heat from Fishery Products	113
	IV. Commercial Refrigeration Systems	121
	V. Protecting Quality in Frozen Fishery Products	124
	VI. Packaging Fishery Products	128
	VII. Summary	134
	References	135
6	Controlling Water Activity	136
	I. Reducing Moisture Activity to Preserve Seafood	136
	II. Dehydration	143
	III. Smoking	155
	IV. Nutrient Changes	167
	V. Future of Smoked Fish Products	172
	References	174
7	Irradiation	176
	I. Introduction	176
	II. Irradiation as a Processing Tool	177
	III. Seafood Irradiation	194
	IV. Safety and Regulations	198
	V. Nutritional Considerations of Irradiated Foods	200
	VI. Summary	201
	References	201
	Appendix: Sources of Information on Irradiated Foods	203

8	Utilizing Fish Flesh Effectively While Maintaining Nutritional Qualities	206
	I. Introduction	206
	II. Improving Efficiency of Managing World Fish Stocks	208
	III. Fishery Conservation	209
	IV. Minced Flesh from Deboning	211
	V. Minced Fish for Patties and Prepared Foods	213
	VI. Nutrient Composition of Minced Flesh	222
	VII. Hydrolyzed Fish Protein	223
	VIII. Surimi, a Special Use for Minced Flesh	227
	IX. Summary	253
	References	253
9	The Role of Marine Lipids in Human Nutrition	258
	I. Introduction	258
	II. Lipids	262
	III. Lipids in Seafoods	269
	IV. Health Benefits from Marine Oils	280
	V. Dosage Levels and Recommended Intakes of Fish Oil	287
	References	289
10	Extracting and Processing Marine Lipids	294
	I. Introduction	294
	II. Sources of Marine Lipids for Human Consumption	296
	III. Handling, Processing, Storing, and Distributing	296
	IV. Preparing Seafood-Institutionally and at Home	301
	V. Omega-3 Fatty Acids in Aquaculture Fish	
	A Special Case	306
	VI. Production of Fish Oil for Human Consumption	307
	VII. Summary	313
	References	314
	Appendix A. Aquaculture: Commercial Farming of Fish and Shellfish	315
	Appendix B. Seaweeds	326
	<i>Index</i>	331
