

CONTENTS

Foreword	iii
Development of a commercial MPC process	2
General Considerations	3
Physical features of the plant	3
Location and size of plant	3
Buildings and process equipment	3
Specifications for the solvent and fish	4
Solvent	4
Raw material	4
Sanitation	6
On the vessel	6
In the plant	6
Packaging	7
Plans for commercial production units	7
Selection of process and equipment	8
Process	8
Equipment	8
Operating procedures for the production of MPC	8
Raw material pretreatment	10
Extraction of water and lipids	10
Desolventization	12
Treatment of finished product	12
Recovery of solvent	13
Recovery of lipids	13
Overall material-handling schedule	13
Discussion	14

	15
Three-stage countercurrent extraction	15
Two-stage countercurrent extraction	15
Preparation and properties of MPC test sample	19
Preparation of the MPC test sample	19
Procurement of raw material	19
Processing procedure	19
Raw material pretreatment	19
Extraction	20
Desolventization	20
Mixing of final product	20
Properties of MPC test sample	20
Physical properties	21
Chemical properties	21
Sensory Properties	26
Nutritive quality	26
Microbiological analyses	26
Wholesomeness	26
Conclusion	27
