

CONTENTS

**Production Factors**

|   |    |
|---|----|
| Effects of Production Factors on Meat Quality in Pigs | 3  |
| Production Factors: Beef                              | 16 |
| Factors Influencing Poultry Meat quality              | 27 |

**Conversion of Muscle into Food**

|  |    |
|--|----|
| Conversion of Muscle into Meat: Biochemistry | 43 |
| Lean Meat, Animal Welfare, and Meat Quality  | 62 |

**Chemistry of Raw and Cooked Products**

|  |     |
|--|-----|
| Structural Aspects of Raw Meat                                     | 79  |
| Structural Aspects of Cooked Meat                                  | 106 |
| Colour of Raw and Cooked Meat                                      | 128 |
| Oxidative Flavour Changes in Meats: Their Origin and Prevention    | 148 |
| Meat Flavour   | 169 |
| Meat Iron Bioavailability: Chemical and Nutritional Considerations | 183 |
| Chemistry of Lipids  | 193 |
| Structural Aspects of Processed Meat                               | 203 |
| Lipids: Nutritional Aspects  | 204 |

**Chemistry of New Existing Technology**

|   |     |
|---|-----|
| Surimi from Fish                                  | 207 |
| Red Meat and Poultry Surimi                       | 222 |
| Cured Meat Products and Their Oxidative Stability | 266 |
| High Intensity Ultrasonics                        | 287 |
| High Pressure                                     | 298 |
| Irradiation of Meat and Poultry                   | 308 |
