

CONTENTS

	Page
Preface	vii
Introduction	1
1. Liquid Flow	5
2. Heat Exchange	37
3. Heat Processing Methods-I	62
4. Liquid Filtration	88
5. Evaporation and Distillation	114
6. Extraction and Expression	161
7. Crystallisation	183
8. Gas Flow	199
9. Drying and Dehydration	214
10. Size Separation of Solids	240
11. Adsorption	255
12. Centrifugal Separation	262
13. Size Reduction of Solids and Liquids	276
14. Mixing	293
15. Gas Absorption and Desorption	327
16. Heat Processing Methods-II	341
Index	353
