# Table of Contents

## SECTION I: PHYSICAL FACTORS

### Chapter 1

Water Activity and Plasticization .....	3
<i>Yrjö H. Roos</i>	

### Chapter 2

Mechanical and Temperature Effects on Shelf Life Stability of Fruits and Vegetables .....	37
<i>Lope G. Tabil, Jr. and Shahab Sokhansanj</i>	

### Chapter 3

Irradiation.....	87
<i>G. Blank and R. Cumming</i>	

### Chapter 4

Packaging Considerations.....	129
<i>Marvin A. Tung, Ian J. Britt, and Sylvia Yada</i>	

## SECTION II: CHEMICAL FACTORS

### Chapter 5

Controlled and Modified Atmosphere Storage .....	149
<i>G. Mazza and D. S. Jayas</i>	

### Chapter 6

Antioxidants and Shelf Life of Foods.....	175
<i>N. A. M. Eskin and R. Przybylski</i>	

### Chapter 7

Food Emulsifiers and Stabilizers.....	211
<i>N. Garti</i>	

### Chapter 8

Effects of Sulfur Dioxide on Food Quality .....	265
<i>B. L. Wedzicha</i>	

### **SECTION III: BIOCHEMICAL FACTORS**

#### **Chapter 9**

The Effect of Oxidative Enzymes in Foods..... 297

*David S. Robinson*

#### **Chapter 10**

Biotechnology to Improve Shelf Life and Quality Traits of Foods ..... 323

*Angel Gabriel Alpuche-Solís and Octavio Paredes-López*

Index ..... 365
