

CONTENTS

1. Basic Scientific Principles, Sugars, and Browning Reactions	1
2. Colloidal Systems and Emulsions	77
3. Proteins, Enzymes, Collagen, and Gelatin	115
4. Starch and Other Polysaccharides	151
5. Fats as Cooking Media, Shortening Agents, and Components of Pastry	213
6. Fruits and Vegetables	251
7. Meat	335
8. Poultry and Fish	495
9. Eggs	527
10. Milk and Milk Products	563
11. Flour	613
12. Flour Mixtures	649
13. Prepared and Precooked Frozen Foods	689
14. Planning and Conducting Experiments	701
15. Sensory Methods in Food-Quality Assessment	727
16. Physical and Chemical Tests of Food Quality	739
Index	779
