
Contents

Chapter 1	
Mono- and Disaccharides: Analytical Aspects	1
<i>D.J. Folkes and M.A. Jordan</i>	
Chapter 2	
Mono- and Disaccharides: Selected Physicochemical and Functional Aspects	41
<i>Kirsi Jouppila</i>	
Chapter 3	
Health Aspects of Mono- and Disaccharides	89
<i>Anne Raben and Kjeld Hermansen</i>	
Chapter 4	
Cell-Wall Polysaccharides: Structural, Chemical, and Analytical Aspects	129
<i>Roger Andersson, Eric Westerlund, and Per Åman</i>	
Chapter 5	
Functional Aspects of Cereal Cell-Wall Polysaccharides	167
<i>Karin Autio</i>	
Chapter 6	
Gums and Hydrocolloids: Analytical Aspects	209
<i>James N. BeMiller</i>	
Chapter 7	
Gums and Hydrocolloids: Functional Aspects	233
<i>Jean-Louis Doublier and Gérard Cuvelier</i>	
Chapter 8	
Nondigestible Carbohydrates: Nutritional Aspects	273
<i>Sheila Khanna, Alison Parrett, and Christine A. Edwards</i>	

Chapter 9

Starch: Analytical Aspects305
Susumu Hizukuri, Jun-ichi Abe, and Isao Hanashiro

Chapter 10

Starch: Physicochemical and Functional Aspects391
Ann-Charlotte Eliasson and Magnus Gudmundsson

Chapter 11

Starch: Nutritional Aspects471
Inger Bjorck
