

CONTENTS

	Page
1. PRODUCTION AND PROPERTIES OF ASPHALT	
1.1 Nomenclature and Origin	1
1.2 Natural Occurrence	3
1.3 Chemical Constitution of Crude Oils	4
1.4 Asphalt Constitution	5
1.5 Characteristic Properties of Asphalt	9
1.6 Physical and chemical Characteristics	13
1.7 Test Methods	17
References	22
2. MANUFACTURE OF ASPHALT	
2.1 Fundamentals	25
2.2 Investigation of crude Oils	28
2.3 Distillation	33
2.4 Extraction	51
2.5 Blowing	55
2.6 Cracked Asphalts	91
2.7 Comparison of Asphalts Made by Different Methods	93
2.8 Other Treatments and Production Methods	95
2.9 Asphalt Service	113
References	133
3. USES OF ASPHALT	
3.1 Reception of Asphalt at the Consumer's	144
3.2 Road Construction	148
3.3 Asphalt for Roofing and Building	173
3.4 Miscellaneous Uses for Asphalt	182
References	194
Appendix	200
Index	203
