

## CONTENTS

	<i>Page</i>
<b>List of Methods:</b>	
Numerical – IP Methods and Panels Responsible . . . . .	vii
Numerical – ASTM–IP Joint Methods . . . . .	xv
Alphabetical . . . . .	xvii
Proposed . . . . .	xxiii
<b>Information on Parts II, III and IV of IP Standards for Petroleum and its Products . . . . .</b>	<b>xxiv</b>
<b>VOLUME 1</b>	
Standard and Tentative Methods IP 1 to IP 230 . . . . .	1.1
<b>VOLUME 2</b>	
Standard and Tentative Methods IP 231 to IP 335 . . . . .	231.1
Proposed Methods . . . . .	PM I
Appendix A. Specifications:	
Normal Heptane . . . . .	AP-A1
Iso-octane . . . . .	AP-A1
<b>Petroleum Spirit – 40/60</b> . . . . .	AP-A1
Petroleum Spirit – 60/80 . . . . .	AP-A2
Petroleum Spirit – 100/120 . . . . .	AP-A2
Benzene . . . . .	AP-A2
Benzole . . . . .	AP-A2
Toluene . . . . .	AP-A2
<b>Toluole</b> . . . . .	AP-A2
Acetone . . . . .	AP-A2
IP Standard Thermometers . . . . .	AP-A3
Appendix B. Conversion of Kinematic Viscosity to Redwood No. I Viscosity . . . . .	AP-B1
Appendix C. Boiling Points, Densities, and Heats of Combustion of Low-boiling Hydrocarbons and Related Compounds . . . . .	AP-C I
Appendix D. Evaluation of Crude Petroleum . . . . .	AP-D I
Appendix E. The Significance and Usage of IP Precision Data . . . . .	AP-E I
Appendix F. Temperature Conversions . . . . .	AP-F I
Appendix G. Constitution of the Standardization Committee, its Sub-Committees, and its Panels . . . . .	AP-G I
Index . . . . .	II
