

CONTENTS

	Page
Preface	7
General Introduction	13
Chapter I – Treatment with Sulfuric Acid	31
Chapter II – Sulfuric Acid Sludge from Petroleum Refining	92
Chapter III – Treatment with Alkaline Reagents	114
Chapter IV – Sweetening Operations and the Elimination of Elementary Sulfur	132
Chapter V – Refining by Adsorption	168
Chapter VI – The Use of Solvents in Refining	220
Chapter VII – The Reduction of Total Sulfur in Light Petroleum Distillates	254
Chapter VIII – Detonation and Antidetonants	269
Chapter IX – Oxidation and Reduction Reactions	289
Chapter X – Inhibitions of Atmospheric Oxidation of Petroleum Products	309
Chapter XI – Gums in Cracked Petroleum Products	319
Chapter XII – Deterioration of Lubricating and Similar Oils	335
Chapter XIII – Miscellaneous Refining Processes and Reagents	348
Appendix I – Supplementary List of Patents on Petroleum Refining	355
Appendix II – Special Tables and Charts	
Centigrade-Fahrenheit Conversion Table	381
Degrees A.P.I., Specific Gravities, and Pounds per Gallon at 60°F (Liquids Lighter Than Water)	382
Sodium Hydroxide (Caustic Soda) Solution at 15°C (59°F)	383
Sulfuric Acid	384
Grams per Liter to Pounds per Barrel Pounds per Barrel to Grams per Liter	385
Color Conversion Table	386
U.S. Specifications for Lubricating Oils, Revised March 18, 1924	388
Appendix III – Glossary of Terms	390
Patent Index	413
Author Index	421
Subject Index	437
