General Introduction	iii
Preface to First Edition	v
Preface to revised Edition	vii
Chapter I – Composition of Petroleum	11
Chapter II – Treatment with Sulfuric Acid	45
Chapter III – Sulfuric Acid Sludge and Hydrogen Sulfide; Recovery and Manufacture of Sulfuric Acid	120
Chapter IV – Treatment with Alkaline Reagents	152
Chapter V – Sweetening Operations, Elimination of Elemental Sulfur, and Reduction of Total Sulfur in Light Distillates	179
Chapter VI – Refining by Adsorption	244
Chapter VII – Refining with Solvents	312
Chapter VIII – Detonation and Antidetonants	340
Chapter IX – Inhibitors of Atmospheric Oxidation of Petroleum Products. Antioxygens	367
Chapter X – Gums and Cracked Petroleum Products	376
Chapter XI – Determination of Lubricating and Similar Oils Addition Agents	398
Supplementary List of United States Patents on Petroleum Refining	417
Appendix Special Tables	497
Patent Index	505
Author Index	519
Subject Index	531
