PART ONE – PRACTICE	
Introductory	
Nature of Petroleum	1
Chapter one THE FLAMMABLE ATMOSPHERE	
I The flammability of petroleum	9
II The occurrence and extent of flammable atmospheres	31
III The detection of flammable atmospheres	46
Chapter two SOURCES OF IGNITION	
I Electrical apparatus	54
II Stray electric currents	60
III Static electricity	64
IV Lightning	75
V Non-electrical sources of ignition	77
Chapter three BASIC PRINCIPLES CONCERNING THE HANDLING OF PETROLEUM FROM THE STANDPOINT OF OCCUPATIONAL HEALTH	
I Physiological effects	87
II Health hazards associated with petroleum hydrocarbons	89
III Health hazards encountered in the refining and utilization of petroleum	102
IV Personal protective measures	110
Chapter four BULK STORAGE OF PETROLEUM LIQUIDS	
I Description of tanks and vessels	132
II Layout of petroleum storage premises	162
Chapter five SAFE PRACTICE AT OIL JETTIES	
I Flammable atmospheres	177
II Sources of ignition	192
Chapter six OPERATIONS AT BULK STORAGE PREMISES	
I Operations at bulk storage tanks	206
II Operations at road and rail tank-car loading racks	224
III Filling drums and cans	238
Chapter seven THE CLEANING AND REPAIR OF TANKS AND DRUMS	
I Bulk storage tanks	240
II The cleaning and repair of drums and similar containers	259
Chapter eight EXTINGUISHING OIL FIRES	
I Principles of oil fire extinction	263
II Fire-extinguishing agents and equipment	263
III Provision of fire-fighting equipment at installations and depots	285
Chapter nine LIQUEFIED PETROLEUM GASES	
I Meaning of “Liquefied Petroleum Gas” (LPG) and “Liquefied Natural Gas” (LNG)	289
II Sources of LPG	290
III Commercial grades of LPG	291
IV Storage of LPG	292

V	Transfer methods	308
VI	Portable container systems	313
VII	Emergency action in the event of leakage of LPG from containers	317
PART TWO – LAW		
Introduction		
	Trend of future legislation	325
Chapter ten STORAGE OF PETROLEUM LIQUIDS		
I	Storage of petroleum-spirit	328
II	Storage of petroleum (other than “petroleum-spirit”)	333
Chapter eleven THE TRANSPORTATION OF PETROLEUM LIQUIDS		
I	Transportation by road	335
II	Transportation by rail	341
III	Transportation by water	342
IV	Movement of petroleum through pipe-lines	345
Chapter twelve UNDERGROUND STORAGE OF GAS		
Chapter thirteen THE PRODUCTION OF PETROLEUM		
		351
