OPENING CEREMONY	I
MESSAGE	IV
KEYNOTE ADDRESS	VI
WELCOME SPEECH	VIII
ORGANIZING COMMITTEE	2
PREFACE	4
NRCT-JSPS SCIENTIFIC COOPERATION	8
NRDT-JSPS COOPERATION ON ENGINEERING	9
PROGRAMME	12
PLENARY LECTURE (PL)	
1). Advance in C ₁ Chemistry and its Extension to C _n Chemistry	PL-1
2). Batch Process and Process systems Engineering	PL-2
3). Advances in binary and Multicomponent Distillation	PL-3
4). Factors affecting Reactivity of coal Gasification	PL-4
5). Multicomponent Transition Metal Oxide Catalysts for the Industrial Oxidation of lower Olefins	PL-5
6). Petrochemical Engineering Research Education in Thailand	PL-6
7). Computer Aided Design & Computer Aided Engineering in Thailand	PL-7
PETROCHEMICAL PROCESSES (PP)	
1). Production of Aromatics : The Integrated Aromatics Complex	PP-1
2). 1,4-Butyleneglycol and Tetrahydrofuran Production from Butadiene Questions and Answers	PP-2 AP-4
3). Mathematical Modelling of a Counter-Current Adsorptive Sorbex type Process for the Separation of C ₈ Aromatics on Molecular Sieves Questions and answers	PP-3 AP-6
4). Production of Fuels in Petrochemicals from Wood by Pyrolysis in Gasification Questions and Answers	PP-4 AP-11
UTILIZATION OF NATURAL GAS, OIL AND COAL (UN)	
1). Efficient Utilization of 2-chloronitrobenzenes to Useful Organic Chemicals	UN-1
2). Carbonization of Athabasca Oil Sand Bitumen Control and Mechanism Mesophase Formation Questions and Answers	UN-2 AP-11
3). Utilization of Petroleum Residue Questions and Answers	UN-3 AP-13
4). High Octane Gasoline Production from Synthetic Gas Questions and Answers	UN-4 AP-14
REACTION ENGINEERING / CATALYSIS (CA)	
1). Olefin Oxidation Process to Produce Acrylic and Methacrylic Acid Questions and Answers	CA-1 AP-15
2). Liquid Hydrocarbon Fuel from Stearine Questions and Answers	CA-2 AP-16
3). COG to SNG by Co-Mn ₂ O ₃ -Ru/Al ₂ O ₃ Catalyst Questions and Answers	CA-3 AP-17
4). Dodecacarbonyltriruthenium Catalyzed Intermolecular Addition of Formyl Derivatives to Olefins Questions and Answers	CA-5 AP-18

- | | | |
|------|---|-------|
| 5). | Catalysis by Heteropoly Compounds | CA-5 |
| | Questions and Answers | AP-18 |
| 6). | Effect of Calcination on Surface Area of Nickel Catalyst | CA-6 |
| | Questions and Answers | AP-19 |
| 7). | Preparation of Nickel Catalysts Used in Steam Reforming Process | CA-7 |
| | Questions and Answers | AP-20 |
| 8). | Gasification of coconur shell with a purpose of charcoal production | CA-8 |
| | Questions and Answers | AP-20 |
| 9). | Ethanol Synthesis from Synthesis Gas Using an IFP-type Catalyst | CA-9 |
| | Question and Answers | AP-21 |
| 10). | Synthesis Gas Production from CO ₂ and CH ₄ | CA-10 |
| 11). | Alkali Promoter Effects on Ruthenium in CO Hydrogenation | CA-11 |
| 12). | Rate of Reaction of the Fischer-Tropsch Synthesis in the Slurry are on a Potassium-promoted Iron Catalyst | CA-12 |
| | Questions and Answers | AP-22 |
| 13). | Kinetics of Methanol Conversion to Gasoline via Vanadosilicate Catalyst | CA-13 |
| | Questions and Answers | AP-22 |
| 14). | Hydrogenation of Rubber Seed Oil | CA-15 |
| | Questions and Answers | AP-23 |

SEPARATION TECHNOLOGY (ST)

- | | | |
|-----|---|-------|
| 1). | Pseudo-Liquid Phase Catalysis of Heteropoly Compounds and its Application to Separation Processes | ST-1 |
| | Questions and Answers | AP-24 |
| 2). | Separation of Gaseous Mixture of CO ₂ and CH ₄ Using Composite Micropore Glass Membrane on Ceramic Tubing | ST-2 |
| | Questions and Answers | AP-24 |
| 3). | Detection and Estimation of Void Zone in Gas Chromatographic Columns-A Novel Method | ST-3 |
| 4). | Heat and Mass Transfer Approach to Separation Performance of Binary Packed column Distillation | ST-4 |
| | Questions and Answers | AP-25 |
| 5). | Fluidized Bed Cooling Tower | ST-5 |

PROCESS SYSTEM ENGINEERING /COMPUTER APPLICATION (PS)

- | | | |
|-----|--|-------|
| 1). | Operation and Maintenance Support System using Expert System Technology for Chemical Plant go Suzuki | PS-1 |
| | Questions and Answers | AP-26 |
| 2). | A Model for Predicting H ₂ S Concentration in Sweet Gas from Hot Carbonate Process | PS-2 |
| | Questions and Answers | AP-27 |
| 3). | Optimization of an Alkylation Process by A GRG Algorithm | PS-3 |
| | Questions and Answers | AP-28 |
| 4). | Energy and Energy Analysis of a Sugar Factory, A Case Study | PS-4 |
| | Questions and Answers | AP-28 |
| 5). | Hydrodynamic Simulation of a Fischer-Tropsch Packed-Bed Reactor | PS-5 |
| | Questions and Answers | AP-29 |
| 6). | A Simplified Method for the Calculation of Single Column Pressure Swing Adsorption | PS-6 |
| | Questions and Answers | AP-29 |

POLYMER SCIENCE & TECHNOLOGY (PT)

- | | | |
|-----|--|-------|
| 1). | Ultrasonic Welding of Roll-Drawn Polypropylene | PT-1 |
| | Questions and Answers | AP-30 |
| 2). | Modification of Fineman-Ross Method for Estimation Monomer Reactivity Ratios | PT-2 |
| 3). | Polymer Film containing Fungicides | PT-3 |
| | Questions and Answers | AP-31 |
