

Contents

Preface	xi
Introduction	xiii
TECHNICAL OVERVIEW	
Worldwide SOFC Overview from a Scandinavian and a European Perspective Seren Linderoth and Anders Smith	3
CELL AND STACK DEVELOPMENT/PERFORMANCE	
Development of Metal Supported Thin Film SOFCs at ICPET/NRCC Yeong Yoo, Naoki Oishi, Daniel Roth, and Suwas Nikumb	17
Fabrication and Optimization of Micro Tubular SOFCs for Cube-Type SOFC Stacks Toshio Suzuki, Toshiaki Yamaguchi, Yoshinobu Fujishiro, Masanobu Awano, and Yoshihiro Funahashi	25
Electrochemical Evaluation of Micro-Tubular SOFC and Module for Advanced Ceramic Reactor Takanori Otake, Misuzu Yokoyama, Kohki Nagai, Kenji Ukai, Yasunobu Mizutani, Yoshihiro Funahashi, and Yoshinobu Fujishiro	33
Development of Fabrication Technology for Honeycomb-Type SOFC with Integrated Multi Micro-Cells Toshiaki Yamaguchi, Ahmed Mohamed El-Toni, Toshio Suzuki, Yoshinobu Fujishiro, Masanobu Awano, and Sota Shimizu	41

Development of Honeycomb-Type SOFC Integrated with Multi Micro Cells: Concept and Simulations Sota Shimizu, Toshiaki Yamaguchi, Toshio Suzuki, Yoshinobu Fujishiro, and Masanobu Awano	49
Micro Solid Oxide Fuel Cell for Remote Power Applications Partho Sarkar, Luis Yamarte, and Lorne Johanson	59
Reducing Degradation Effects in SOFC Stacks Manufactured at Forschungszentrum Julich—Approaches and Results Heinz Nabielek, Ludger Blum, Hans Peter Buchkremer, Vincent Haanappel, L.G.J. (Bert) de Haart, Willem Jo Quadackers, Robert Steinberger-Wilckens, Rolf W. Steinbrech, Uwe Reisgen, and Frank Tietz	65
Application of Lanthanum Gallate Based Oxide Electrolyte in Solid Oxide Fuel Cell Stack T. Yamada, N. Chitose, H. Eto, M. Yamada, K. Hosoi, N. Komada, T. Inagaki, F. Nishiwaki, K. Hashino, H. Yoshida, M. Kawano, S. Yamasaki, and T. Ishihara	79
Reversible Solid Oxide Cells Mogens Mogensen, Søren Højgaard Jensen, Anne Hauch, Ib Chorkendorff, and Torben Jacobsen	91
Regenerative Operation of the NASA Symmetrical Support Solid Oxide Fuel Cell T.L. Cable, J.A. Setlock, and S.C. Farmer	103
PROCESSING/FABRICATION	
Electrophoretic Deposition and Sintering of Tubular Anode Supported Gadolinium Doped Ceria Solid Oxide Fuel Cell G. Falk, N. Bohm, P.-G. Delaporte, R. Clasen, and S. Kühn	117
CHARACTERIZATION/TESTING	
Determination of Anode-Pore Tortuosity from Gas and Current Flow Rates in SOFCs V. Hugo Schmidt, Chih-Long Tsai, and Laura Lediaev	129
Photoelectron Microscopy Study of the Surface Chemistry of Operating LSM-YSZ SOFC Cathodes Monika Backhaus-Ricoult, Kaveh Adib, Todd St.Clair, Bjoern Luerssen, Luca Gregoratti, A. Barinov, and P. Dudin	141
In Situ X-Ray and Electrochemical Studies of Solid Oxide Fuel Cell/Electrolyzer Oxygen Electrodes Bilge Yildiz, Deborah J. Myers, J. David Carter, Kee-Chul Chang, and Hoydoo You	153

ELECTRODES

- Electrochemical Characterization of Modified LSM Cathodes 167
Steven P. Simner, Jared W. Templeton, and Jeffrey W. Stevenson
- Fabrication and Characterization of Dense 177
 $\text{La}_{0.85}\text{Sr}_{0.15}\text{MnO}_3\text{-Ce}_{0.9}\text{Gd}_{0.1}\text{O}_{1.95}$ Composite Electrodes
Robert Williams, Jr., Shaowu Zha, and Meilin Liu
- Evaluation of Ruddlesden-Popper Nickelate Cathodes for Higher 183
Temperature SOFC
Richard Goettler, Zhengliang Xing, Liang Xue, and Michael Hill
- Microstructure Control of Cathode Matrices for the Cube-Type 195
SOFC Bundles
Yoshihiro Funahashi, Toru Shimarnori, Toshio Suzuki, Yoshinobu Fujishiro,
and Masanobu Awano
- Niobium-Doped Strontium Titanates as SOFC Anodes 203
Peter Blennow, Kent K. Hansen, L. Reine Wallenberg, and Mogens Mogensen
- Controlled Thermal Expansion Anode Compositions with Improved 215
Strength for Use in Anode Supported SOFC's
Stephen W. Sofie and Davis R. Taylor

OXIDE CONDUCTORS

- Oxygen Diffusion Mechanisms in Two Series of Oxide Ion 227
Conductors: BIMEVOX and Brownmillerite Materials
Aurelie Rolle, Pascal Roussel, Chanapa Kongmark, Caroline Pirovano, and
Rose-Noelle Vannier

INTERCONNECTS AND PROTECTIVE COATINGS

- Synthesis and Sintering Behavior of Lanthanum Chromite Doped 239
with Strontium and Cobalt for SOFC Interconnect Applications
L.F.G. Setz, H.P.S. Correa, C. Yamagata, and S.R.H. Mello-Castanho
- Anodic Electrodeposition of Mn-Co-O Spinel Coatings on Stainless 255
Steel Substrates
Weifeng Wei, Sofianne Benhaddad, Anthony Wood, Weixing Chen, and
Douglas G. Ivey
- The Effect of Surface Treatment on the Oxidation Behavior of Ferritic 267
Steel Interconnects for Solid Oxide Fuel Cells
L. Cooper, S. Benhaddad, A. Wood, D.G. Ivey, and W. Chen

Corrosion Behavior of Interconnect Candidate Alloys Under Air/Simulated Reformate Dual Exposure Conditions Zhenguo Yang, Guan-Guang Xia, Jeffrey W. Stevenson, and Prabhakar Singh	279
Degradation of SOFCs in Contact with E-Brite® Terry A. Cruse, Michael Krumpelt, and Brian J. Ingram	289
Stability and Performance of Silver in an SOFC Interconnect Environment Charles Compson, Songho Choi, Harry Abernathy, Yongman Choi, and Meilin Liu	301
SEALS	
Properties of Particle-Filled Glass Composites Used for Sealing Solid Oxide Fuel Cells Erica L. Corral, Bryan D. Gauntt, and Ronald E. Loehman	315
Self Healing Behavior of Glasses for High Temperature Seals in Solid Oxide Fuel Cells R.N. Singh and S.S. Parihar	325
Copper Based Braze for Robust Sealing of Planar Solid Oxide Fuel Cells Stephen W. Sofie and Johannes-Moritz Buscher	335
MECHANICAL PROPERTIES	
Processing, Phase Stability and Mechanical Properties of 10 mol% Sc ₂ O ₃ – 1 mol% CeO ₂ -ZrO ₂ Ceramics Sergey Yarnolenko, Devendra Ray, Devdas Pai and Jag Sankar	345
NiO-10Sc1CeSZ Anode: Structure and Mechanical Behavior Oleksandr Vasylyev, Igor Brodnikovskiy, Mykola Brychevskiy, and Ievhenii Pryshchepa	361
Effect of Temperature and Environment on the Mechanical Properties of LSFT-CGO Membranes Thangamani Nithyanantham and S. Bandopadhyay	377
Fracture Failure Criteria of SOFC PEN Structure W.N. Liu, X Sun, M.A. Khaleel, and J. M. Qu	389
MODELING/SIMULATION	
Determination of Chemical Expansion Coefficient and Elastic Properties of Non-Stoichiometric GDC Using Molecular Dynamic Simulations Narasimhan Swaminathan and Jianrui Qu	403

2D Digital Reconstruction of Realistic Microstructures of Porous Cermets Used in Solid Oxide Fuel Cells	413
Janine Johnson and Jianmin Qu	

FUEL REFORMING

CH ₄ Reactivity of Apatite Systems of Relevance to Solid Oxide Fuel Cell Applications	425
S. Barth, P.A. Sermon, and P.R. Slater	
Author Index	435
