Preface	ix
Introduction	xi
POROUS CERAMICS	
Hierarchical Porosity Ceramic Components from Pre-ceramic Polymers	3
P. Colombo, L. Biasetto, E. Bernardo, S. Costacurta, C. Vakifahmetoglu, R. Peña-Alonso, G.D. Sorarù, E. Pippel, and J. Woltersdorf	
Electrophoretic Deposition of Particle-Stabilized Emulsions	13
Bram Neirinck, Jan Fransaer, Omer Van der Biest, and Jef Vleugels	
Application of Porous Acicular Mullite for Filtration of Diesel Nano Particulates	27
Cheng G. Li and Aleksander J. Pyzik	
Microstructural Development of Porous β - Si_3N_4 Ceramics Prepared by Pressureless-Sintering Compositions in the Si-Re-O-N Quaternary Systems (Re=La, Nd, Sm, Y, Yb)	41
Mervin Quinlan, D. Heard, Kevin P. Plucknett, Liliana Garrido, and Luis Genova	
Compositional Design of Porous β - Si_3N_4 Prepared by Pressureless-Sintering Compositions in the Si-Y-Mg-(Ca)-O-N System	49
Mervin Quinlan, Kevin P. Plucknett, Liliana Garrido, and Luis Genova	
Aligned Pore Channels in 8mol% Yttria Stabilized Zirconia by Freeze Casting	57
Srinivasa Rao Boddapati and Rajendra K. Bordia	
Preparation of a Pore Self-Forming Macro-/Mesoporous Gehlenite Ceramic by the Organic Steric Entrapment (PVA) Technique	67
Dechang Jia, Dongkyu Kim, and Waltraud M. Kriven	

Nonlinear Stress-Strain Behavior Evaluation of Porous Ceramics with Distributed-Micro-Crack Model Hidenari Baba and Akihiko Suzuki	77
Thermal Shock Behavior of NITE-Porous SiC Ceramics Yi-Hyun Park, Joon-Soo Park, Tatsuya Hinoki, and Akira Kohyama	89
Optimization of the Geometry of Porous SiC Ceramic Filtering Modules Using Numerical Methods S. Alexopoulos, G. Breitbach, B. Hoffschmidt, and P. Stobbe	95
Weibull Statistics and Scaling Laws for Reticulated Ceramic Foam Filters Mark A. Janney	105
Effect of Test Span on Flexural Strength Testing of Cordierite Honeycomb Ceramic Randall J. Stafford and Rentong Wang	113
 BIOCERAMICS	
Biomaterials Made with the Aid of Enzymes Hidero Unuma	127
Use of Vaterite and Calcite in Forming Calcium Phosphate Cement Scaffolds A. Cuneyt Tas	135
Deposition of Bone-Like Apatite on Polyglutamic Acid Gels in Biomimetic Solution Toshiki Miyazaki, Atsushi Sugino, and Chikara Ohtsuki	151
Surface Structure and Apatite-Forming Ability of Polyethylene Substrates Irradiated by the Simultaneous Use of Oxygen Cluster and Monomer Ion Beams M. Kawashita, S. Itoh, R. Araki, K. Miyamoto, and G.H. Takaoka	159
Conversion of Borate Glass to Biocompatible Phosphates in Aqueous Phosphate Solution Mohamed N. Rahaman, Delbert E. Day, and Wenhai Huang	171
Fabrication of Nano-Macro Porous Soda-Lime Phosphosilicate Bioactive Glass by the Melt-Quench Method Hassan M.M. Moawad and Himanshu Jain	183
Pores Needed for Biological Function Could Paradoxically Boost Fracture Energy in Bioceramic Bone Tissue Scaffolds Melissa J. Baumann, I.O. Smith, and Eldon D. Case	197

Novel Routes to Stable Bio-Templated Oxide Replicas Y. Cheng, L. Courtney, and P.A. Sermon	209
 GEOPOLYMERS	
Role of Alkali in Formation of Structure and Properties of a Ceramic Matrix Pavel Krivenko	221
Will Geopolymers Stand the Test of Time? John L. Provis, Yolandi Muntingh, Redmond R. Lloyd, Hua Xu, Louise M. Keyte, Leon Lorenzen, Pavel V. Krivenko, and Jannie S.J. van Deventer	235
New Trends in the Chemistry of Inorganic Polymers for Advanced Applications Kenneth J.D. MacKenzie, Suwitcha Komphanchai, and Ross A. Fletcher	249
Influence of Geopolymer Binder Composition on Conversion Reactions at Thermal Treatment A. Buchwald, K. Dombrowski, and M. Weil	257
Laser Scanning Confocal Microscopic Analysis of Metakaolin-Based Geopolymers Jonathan L. Bell, Waltraud M. Kriven, Angus P.R. Johnson, and Frank Caruso	273
Synthesis and Characterization of Inorganic Polymer Cement from Metakaolin and Slag L. Cristina Soare and A. Garcia-Luna	283
Recent Development of Geopolymer Technique in Relevance to Carbon Dioxide and Waste Management Issues Ko Ikeda	293
Aqueous Leachability of Geopolymers Containing Hazardous Species D.S. Perera, S. Kiyama, J. Davis, P. Yee, and E.R. Vance	309
Practical Applications of Geopolymers Chett Boxley, Bally Nair, and P. Balaguru	321
Geopolymer-Jute Composite: A Novel Environmentally Friendly Composite with Fire Resistant Properties Amandio Teixeira-Pinto, Benjamin Varela, Kunal Shrotri, Raj S. Pai Panandiker, and Joseph Lawson	337
Design, Properties, and Applications of Low-Calcium Fly Ash-Based Geopolymer Concrete B. Vijaya Rangan	347

Rate of Sulphuric Acid Penetration in a Geopolymer Concrete Xiujiang Song, Marton Marosszeky, and Zhen-Tian Chang	363
Corrosion Protection Assessment of Concrete Reinforcing Bars with a Geopolymer Coating W.M. Kriven, M. Gordon, B.L. Ervin, and H. Reis	373
Author Index	383
