

Contents

Preface	vii
Introduction	ix
THERMAL AND ENVIRONMENTAL BARRIER COATINGS	
Kinetics and Mechanism of Oxidation of the Reinforced Carbon/Carbon on the Space Shuttle Orbiter Nathan Jacobson, David Hull, James Cawley, and Donald Curry	3
Thermomechanical Fatigue Life of TBCS—Experimental and Modeling Aspects Sören Sjöström and Håkan Brodin	23
Oxidation-Induced Stresses in Thermal Barrier Coating Systems Hugh E Evans	41
Strength Degrading Mechanisms in Plasma Spray Coated Silicon Nitride Ramakrishna T. Bhatt Dennis S. Fox, and Abdul-Aziz Ali	57
Effect of Microstructure Change of APS-TBCS on the Interfacial Mechanical Property under Shear Loading Makoto Hasegawa and Hiroshi Fukutomi	67
Effect of Thermal Gradient on the Through-Thickness Thermal Conductivity of Plasma-Sprayed TBCS Yang Tan, Jon Longtin, Sanjay Sampath, and Dongming Zhu	75
Thermal Property Measurement for Thermal Barrier Coatings by Thermal Imaging Method J. G. Sun	87

Research on MoSi ₂ -Based Oxidation Protective Coating for SiC-Coated Carbon/Carbon Composites Prepared by Supersonic Plasma Spraying	95
Cao Wei, Li Hejun, Wu Heng, Xue Hui, Fu Qiangang, Ma Chao, Wang Yongjie, and Wei Jianfeng	

ADVANCED COATINGS FOR WEAR AND CORROSION APPLICATIONS

LAFAD-Assisted Plasma Surface Engineering Processes for Wear and Corrosion Protection: A Review	105
V. Gorokhovskiy	
Aluminum Oxide and Silicon Nitride Thin Films as Anti-Corrosion Layers	123
C. Qu, P. Li, J. Fan, D. Edwards, W. Schulze, G. Wynick, R. E. Miller, L. Lin, Q. Fang, K. Bryson, H. Rubin, and X. W. Wang	
Plasma Nitrided Austenitic Stainless Steel for Biomedical Applications	135
O. Gokcekaya, S. Yilmaz, C. Ergun, B. Kaya, and O. Yücel	
A Report on the Microstructure of As-Fabricated, Heat Treated and Irradiated ZrC Coated Surrogate TRISO Particles	147
Gokul Vasudevamurthy, Yutai Katoh, Jun Aihara, Shohei Ueta, Lance L. Snead, and Kazuhiro Sawa	

ADVANCED COATING PROCESSING

Introduction to High Velocity Suspension Flame Spraying (HVSFS)	161
R. Gadov, A. Killinger, J. Rauch, and A. Manzat	
Electrophoretic Deposition of Oxide Powder by Using Non-Flammable Organic Solvent	177
Hideyuki Negishi, Ai Miyamoto, Akira Endo, Keiji Sakaki, Hiroshi Yanagishita, and Kunihiko Watanabe	
Use of Glass-Ceramic Coatings Containing Water-Reactive Components as a Bonding Layer between Concrete and Metal	187
Charles A Weiss, Jr., Sean W. Morefield, Philip G. Malone, Karen S. Henry, Sean P. Harte, and Michael L. Koenigstein	
Author Index	193
