

CONTENTS

|    |  |     |
|----|--|-----|
| 1  | High-performance glasses   | 1   |
| 2  | Glass formation from gels  | 20  |
| 3  | Oxynitride glasses   | 50  |
| 4  | Coating on glass   | 63  |
| 5  | Glasses for flat-panel displays                                      | 86  |
| 6  | Glass ceramics   | 102 |
| 7  | Electrical glasses: ionically conducting systems                     | 133 |
| 8  | The bioactivity of glasses   | 148 |
| 9  | Slow-release glasses   | 161 |
| 10 | Controlling the durability of nuclear-waste glass                    | 187 |
| 11 | Optically non-linear glasses   | 210 |
| 12 | Advanced optical components  | 229 |
| 13 | Infrared-transmitting optical fibres                                 | 252 |
| 14 | Photo-induced changes in chalcogenide glasses and their applications | 287 |
|    | References   | 310 |
|    | Index  | 339 |
