

CONTENTS

I.	The Glassy State	1
II.	Elementary Chemistry of Glassmaking	5
III.	The Glass-Forming Oxides	12
IV.	Glass Composition and Crystallizing Phases	20
V.	Chemical Composition of Commercial Glasses	41
VI.	Raw materials	64
VII.	Batches and Calculations	84
VIII.	Handling and Mixing Raw Materials	93
IX.	Combustion and Fuels	100
X.	Furnaces	113
XI.	Viscosity	138
XII.	The Melting Process	145
XIII.	Principles of Glassworking	154
XIV.	Mechanical Glassworking	166
XV.	Strain and Annealing	191
XVI.	Color	202
	Opal and Alabaster Glasses	224
XVII.	Decorative Processes	227
XVIII.	Mechanical Properties of Glass	236
XIX.	Other Physical Properties	259
XX.	Weathering and Durability	276
XXI.	Testing and Glassware	283
XXII.	Optical Glass	302
XXIII.	Defects	311
XXIV.	Refractories	323
