

CONTENTS

|  |     |
|--|-----|
| Introduction                               | 1   |
| Thermodynamics and Phase Equilibria        | 3   |
| The One-Component System                   | 9   |
| The Two-Component System                   | 21  |
| Determination of Phase Equilibria Diagrams | 49  |
| Hypothetical Binary Systems Phase Analysis | 71  |
| Ternary Systems                            | 77  |
| Nonequilibrium Phases and Reactions        | 125 |
| Quaternary Systems                         | 133 |
| Appendices                                 | 139 |
