

**CONTENTS**

1. Special ceramics for modern applications: which? why? how?	1
2. Laser vapour phase synthesis of ceramic powders	34
3. Particle interactions in suspensions	58
4. Dry pressing of ceramic powders	102
5. The principles of tape casting and tape casting applications	147
6. Plastic forming of ceramics: extrusion and injection moulding	174
Index	213
