

CONTENTS

Preface	iii
Introduction	vii
Part I STRUCTURE AND PROPERTIES	1
1 Atomic Bonding and Crystal Structure	3
2 Physical, Thermal, Electrical, Magnetic, and Optical Properties	32
3 Mechanical Properties and Their Measurements	69
4 Time, Temperature, and Environmental Effects on Properties	101
Part II PROCESSING OF CERAMIC	147
5 Powder Processing	149
6 Shape-Forming Processes	178
7 Densification	217
8 Final machining	260
9 Quality Control	274
Part III DESIGN WITH CERAMICS	303
10 Design Considerations	305
11 Design Approaches	313
12 Failure Analysis	325
13 Applications: Material Selection	376
Index	393
