

CONTENTS

PART I : THE GENERAL PRINCIPLES OF CERAMIC MANUFACTURE

Chapter 1	The Raw Materials	3
Chapter 2	The Action of Heat on Ceramic Raw Materials	167
Chapter 3	Winning and Purification of Clays	236
Chapter 4	The Ceramic Laboratory	265
Chapter 5	Ceramic Bodies	393
Chapter 6	Glazes	525
Chapter 7	The Mechanical Preparation of Ceramic Bodies and Glazes	661
Chapter 8	Shaping	716
Chapter 9	Glazing and Decorating	777
Chapter 10	Drying of Shaped Ware	832
Chapter 11	Firing and Kilns	854

PART II : CERAMIC PRODUCTS

Chapter 12	Ceramic Building Materials	1065
Chapter 13	Ceramics in the Home	1089
Chapter 14	Chemical and Technical Ceramics	1103
Chapter 15	Specialised Laboratory and Engineering Ware	1135
Chapter 16	Ceramics in the Electrical Industry	1170
Chapter 17	Constructional Refractories	1212
Chapter 18	Thermal Insulators	1284
