PART 1	
INTRODUCTION	1
NON-IONIC DYES	
1.1 With acidic colligators (sidechains)	13
1.2 With basic colligators	23
1.3 Neutral	31
1.4 Amphoteric	
CATIONIC DYES	
2.1 Wholly basic	39
2.2 Amphoteric	143
ANIONIC DYES, WHOLLY ACID	
3.1.1 Carboxylated, without OH groups	155
3.1.2 Carboxylated, with OH groups	159
3.1.3 Sulphonated, without OH groups	201
3.1.4 Sulphonated, with OH groups	225
3.1.5 Sulphonated, with carboxyl and OH groups	335
3.1.6 With OH groups as their only colligators	347
ANIONIC DYES, WEAKLY AMPHOTERIC	
3.2.1 Sulphonated without OH groups	369
3.2.2 Sulphonated with OH groups	403
ANIONIC DYES, MODERATELY OR STRONGLY AMPHOTERIC	
3.3.1 Sulphonated and/or carboxylated without OH groups	409
3.3.2 Sulphonated and/or carboxylated with OH groups	531
3.3.3 With OH groups as the only acidic colligators	685
PART 2	
MISCELLANEOUS DYES	689
PART 3	
TABLES OF DYES(arranged in order of wavelength of maximum absorption)	713
TABLES OF DYES (arranged in order of ionic or molecular weight)	713
PART 4	
STABILISED DIAZONIUM SALTS (Azoic diazo compounds)	745
PART 5	
SUBSTITUTED NAPHTHOLS(Azoic coupling components)	755
PART 6	
BIBLIOGRAPHY	763
AUTHOR INDEX	771
GENERAL INDEX	775
APPENDIX	803
TABLE OF ATOMIC WEIGHTS	807
