

**CONTENTS**

	Page
1. History of dyeing	1
2. General properties of fibres	12
3. Cotton and the chemistry of cellulose	37
4. Multicellular vegetable fibres	66
5. Animal fibres	74
6. Regenerated man-made fibres	109
7. Synthetic fibres	131
8. Water and water purification	160
9. Detergents and scouring	183
10. Bleaching	222
11. Unshrinkable and other finishes	260
12. Introduction to chemical constitution and colour, theory of dyeing, And classification of dyes	303
13. Dyeing machines	335
14. Basic dyes	368
15. Acid dyes	378
16. The direct dyes	405
17. Mordant dyes	430
18. Azoic dyes	444
19. Sulphur dyes	463
20. Vat dyes	474
21. Disperse dyes and dyeing cellulose acetates	506
22. Reactive dyes	520
23. Dyeing synthetic fibres	544
24. Dyeing materials containing mixtures of fibres	574
25. Testing dyed materials	587
26. Colour	615
Appendix : Miscellaneous information and tables	649
Name index	661
Dyestuff index	664
General index	667
