

CONTENTS

	Page
1. History of dyeing	1
2. General properties of fibres	12
3. Cotton and the chemistry of cellulose	37
4. Multicellular vegetable fibres	69
5. Animal fibres	77
6. Regenerated man-made fibres	112
7. Synthetic fibres	134
8. Water and water purification	167
9. Detergents and scouring	190
10. Bleaching	229
11. Unshrinkable and other finishes	268
12. Introduction to chemical constitution and colour, theory of dyeing, And classification of dyes	318
13. Dyeing machines	355
14. Basic dyes	392
15. Acid dyes	403
16. The direct dyes	431
17. Mordant dyes	456
18. Azoic dyes	470
19. Sulphur dyes	485
20. Vat dyes	497
21. Disperse dyes and dyeing cellulose acetates	527
22. Reactive dyes	540
23. Dyeing synthetic fibres	565
24. Dyeing materials containing mixtures of fibres	602
25. Testing dyed materials	616
26. Colour	645
Appendix : Miscellaneous information and tables	683
Name index	693
Dyestuff index	696
General index	699
