	Page
Introduction- The Paint and Varnish Industry	1
1. Drying Oils	57
2. Cashew Nutshell liquid	74
3. Oiticica Oil	102
4. Dehydrated Castor Oil	115
5. Synthetic Drying Oils	151
6. Economics of Drying Oils	162
7. Rosin	175
8. Natural Resins for The paint and Varnish Industry	213
9. Shellac and Other lacs	259
10. Ester Gum	292
11. Copal Ester	302
12. Phenolic Resins	311
13. Alkyd Resins	338
14. Coumarone-Indene Resin	360
15. Urea-formaldehyde coating compositions	392
16. Maleic Resins	416
17. Vinyl Resins	433
18. Rubber Condensation Derivatives in Paint	447
Chlorinated Rubber	459
19. Acrylic Resins	476
20. Synthetic Hydrocarbon Resins- Petropols and Chlorinated Diphenyls	482
21. Aryl Sulfonamide-Formaldehyde Resins	492
22. Paint Driers	499
23. Terpene Solvents	537
24. Petroleum Thinners of Ordinary Types	574
25. High-solvency Naphthas	596
26. Coke-Oven Light-Oil Distillated in the Paint and Varnish Industry	625
27. Lacquer Solvents and Formulation of Solvent	641
28. Asphalts andAsphalt Paints	739
29. Ethylcellulose	759
Index	805
