

CONTENTS

	Page
PART ONE : GENERAL SCIENCE	
1. Atoms to equations	5
2. Inorganic chemistry	17
3. Organic chemistry : Paraffins to oils	29
4. Organic chemistry : Ethers to isocyanates	45
5. Solid forms	57
6. Colour	70
PART TWO : APPLIED SCIENCE	
7. Paint : First principles	83
8. Pigmentation	95
9. Solvents	108
10. Paint additives	125
11. Lacquers and emulsion paints and non-aqueous dispersions	134
12. Oil and alkyd paints	148
13. Thermosetting alkyd, polyester and acrylic paints based on nitrogen resins	165
14. Epoxy coatings	176
15. Polyurethanes	190
16. Unsaturated polyester and acrylics	204
Appendix : Suggestions for further reading	218
Index	220
