

**CONTENTS**

	Page
1. Introduction to Corrosion	1
2. Corrosion as Related to Coatings	19
3. Essential Coating Characteristics	47
4. Coating Fundamentals	63
5. Corrosion-Resistant Organic Coatings	89
6. Corrosion-Resistant Zinc Coatings	129
7. Structural Design for Coating Use	173
8. The Substrate- Importance to Coating Life	193
9. Surface Preparation	205
10. Application of Coatings	247
11. Coatings for Concrete	287
12. Coating Selection	305
13. Coatings and Cathodic Protection	325
14. Coating Failures	347
15. Coating Repair and Maintenance	377
16. Safe Application of Coatings and Linings	405
17. Specifications	439
18. Inspection and Testing	459
19. Typical Coating Uses	481
Color Insert	
Subject Index	513
