	13.1	Unsaturated polyester Resins	212	
	13.2	(Meth)acrylated Oligomers	214	
	13.3		216	
	13.4	Other Approaches to Cross-Linkable Resins	221	
14.		nts and Solubility	229	
	14.1	Solvent Composition	230	
	14.2	Solubility	232	
15.	Other Solvent Properties		242	
	15.1	Solvent Evaporation Rates	242	
	15.2	Density	253	
	15.3	Viscosity Effects	253	
	15.4	Other Physical Properties	255	
	15.5	Flammability	256	
	15.6	Toxic Hazards	258	
	15.7	Atmospheric Photochemical Effects	259	
16.	Color	1.17	267	
	16.1	Light	267	
	16.2	Light-Object Interactions	270	
	16.3	Hiding Matellia Calara	278	
	16.4 16.5	Metallic Colors	280 281	
		The Observer	281 282	
	16.6	Interactions of Light Source, Object, and Observer		
	16.7 16.8	Color Systems	284 288	
	16.8 16.9	Color Mixing Color Matching	288 289	
17.	Gloss			
1/.	17.1	Types of Gloss	296 296	
	17.1	Variables in Specular Gloss	298	
	17.2	Factors Affecting Gloss	300	
	17.4	Gloss Measurement	302	
18.	Pigments			
	18.1	White Pigments	306 306	
	18.2	Color Pigments	310	
	18.3	Inert Pigments	318	
	18.4	Functional Pigments	320
