10 Polymeric Coating Additives 379

10.1	Introduction	379
10.2	Polymeric Dispersants	380
10.2.1	Dispersing Process	380
10.2.1.1	Pigment Wetting	380
10.2.1.2	Mechanical Dispersion	381
10.2.1.3	Stabilization	381
10.2.1.3.1	Stabilization in Polar Media	382
10.2.1.3.2	Stabilization in Apolar Media	384
10.3	Polymeric Thickeners	386
10.3.1	Polymeric Thickeners for Paints and Coatings	387
10.3.1.1	Cellulose Thickeners	388
10.3.1.2	Polysaccharides	389

10.3.1.3 Polyacrylates	389
10.3.1.4 PUR Thickeners	390
10.3.1.4.1 Chemical Composition of the PUR Thickeners	391
10.3.1.4.2 Thickening Mechanism	391
10.3.1.4.3 Application Properties	392
10.4 Slip- and Mar-Agents (Polysiloxane Additives)	393
10.4.1 General Structure and Application of Polysiloxanes	394
References for Chapter 10	395
11 Resin Analysis	396
11.1 Chromatographic Methods	396
11.1.1 Gas Chromatography	396
11.1.1.1 Principle of the Method	396
11.1.1.2 Special Techniques	397
11.1.1.3 Applications	398
11.1.2 High-Performance Liquid Chromatography (HPLC)	403
11.1.2.1 Principle of the Method	403
11.1.2.2 Applications	403
11.1.3 Gel Permeation Chromatography (GPC)	405
11.1.3.1 Principle of the Method	405
11.1.3.2 Applications	405
11.1.4 Supercritical Fluid Chromatography (SFC)	407
11.1.4.1 Principle of the Method	407
11.1.4.2 Applications	408
11.2 Spectroscopic Methods	409
11.2.1 Nuclear Magnetic Resonance Spectroscopy (NMR)	409
11.2.1.1 Principle of the Method	409
11.2.1.2 Applications	410
11.2.2 Fourier Transform Infrared Spectroscopy	413
11.2.2.1 Principle of the Method	413
11.2.2.2 Applications	414
11.2.3 Further Spectroscopic Methods	416
11.2.3.1 Mass Spectrometry	416
11.2.3.2 X-Ray Fluorescence Spectroscopy	418
11.2.3.3 Electron Excitation Spectroscopy	418
11.3 Thermal Analysis	418
11.3.1 Differential Thermal Analysis	419
11.3.2 Thermogravimetric Analysis	419
11.3.3 Thermomechanical Analysis	419
11.3.4 Practical Examples with Paint Raw Materials	420
11.4 Characteristic Tests of Coating Raw Material for Identification and Quality Control	421
11.4.1 Identification Tests	421
11.4.2 Quality Control Tests	421
