

Contents

Preface.....	xiii
Editor	xv
Contributors	xvii
Chapter 1 Sugar-Based Surfactants for Consumer Products and Technical Applications	1
<i>Karlheinz Hill and Catherine LeHen-Ferrenbach</i>	
Chapter 2 Solution Behavior of Alkyl Glycosides and Related Compounds.....	21
<i>Patrizia Andreozzi, Giacomo Gente, and Camillo La Mesa</i>	
Chapter 3 Self-Assembly and Micellar Structures of Sugar-Based Surfactants: Effect of Temperature and Salt Addition.....	61
<i>José A. Molina-Bolívar and Cristóbal Carnero Ruiz</i>	
Chapter 4 Thin Film and Foam Properties of Sugar-Based Surfactants	105
<i>Per Claesson, Cosima Stubenrauch, Rumen Krastev, and Ingegård Johansson</i>	
Chapter 5 Soluble Monolayers of Sugar-Based Surfactants at the Air–Solution Interface.....	153
<i>Atte J. Kumpulainen, Eric C. Tyröde, and Jan Christer Eriksson</i>	
Chapter 6 Adsorption of Sugar-Based Surfactants at Solid–Liquid Interfaces.....	207
<i>Ponisseril Somasundaran, Lei Zhang, and Shaohua Lu</i>	
Chapter 7 Rheological Properties of Systems Containing Sugar-Based Surfactants	245
<i>Gemma Montalvo and Mercedes Valiente</i>	

Chapter 8	Sugar-Based Gemini Surfactants with pH-Dependent Aggregation Properties	275
	<i>Marco Scarzello, Marc C.A. Stuart, Jaap Klijn, Anno Wagenaar, and Jan B.F.N. Engberts</i>	
Chapter 9	Sugar-Based Ionic Surfactants: Syntheses, Solution Properties, and Applications	309
	<i>Omar A. El Seoud and Paula D. Galgano</i>	
Chapter 10	Sugar-Based Surfactants with Isoprenoid-Type Hydrophobic Chains: Physicochemical and Biophysical Aspects	361
	<i>Masakatsu Hato, Hiroyuki Minamikawa, and Tadashi Kato</i>	
Chapter 11	Micellar Properties and Molecular Interactions in Binary Surfactant Systems Containing a Sugar-Based Surfactant	413
	<i>Cristóbal Carnero Ruiz</i>	
Chapter 12	Microemulsions Stabilized by Sugar Surfactants	463
	<i>Cosima Stubenrauch and Thomas Sottmann</i>	
Chapter 13	Self-Organization of the Ternary Dialkyldimethylammonium Bromide/OBG/Water Systems: Mixed Nanoaggregates, Vesicles, and Micelles	501
	<i>Elena Junquera and Emilio Aicart</i>	
Chapter 14	Comparative Study of the Interaction between Nonionic Surfactants and Bovine Serum Albumin: Sugar-Based vs. Ethoxylated Surfactants	547
	<i>Cristóbal Carnero Ruiz, José M. Hierrezuelo, José M. Peula-García, and Juan Aguiar</i>	
Chapter 15	Applications of Alkyl Glucosides in the Solubilization of Liposomes and Cell Membranes	585
	<i>Olga López, Mercedes Cócera, Luisa Coderch, Lucyanna Barbosa-Barros, José L. Parra, and Alfonso de la Maza</i>	
Index		627
