

## CONTENTS

		Page
11.	SEQUESTRATION	453
	I Introduction	454
	II Sequestration	454
	III Sequestration Measurements	466
	IV Sequestration Values and Stability Constants	470
	V The Role of Sequestrants in Detergent Products	473
	VI Commercially Available Sequestrants	495
	VII Other Sequestering Agents of Importance	498
	VIII Sequestrants Selection	501
	References	502
12.	EVALUATION OF THE RINSING PROCESS	505
	I Introduction	505
	II Rinsing Experiment	507
	III Rinsing Efficiency Test	507
	IV Sudsing in the Rinse Cycle	510
	V Surfactant Buildup	510
	VI Conclusion	510
	Appendix : Evaluating the Rinsing Effectiveness of Washers	511
13.	BLEACHING AND STAIN REMOVAL	519
	I Introduction	520
	II Bleaching and Stain-Removing Compounds	520
	III Stained and Soiled Substrates	532
	IV Stain removal	544
	V Fabric Damage	582
	References	608
