

# Contents

## Session I: Keynote Address

- Creating Value Together: Strategies for Industry Growth  
*A.G. Lafley* 1

## Session II: Changing the Game in the Detergents Industry

- Changing the Game in the Detergent Industry: Playing Without a Ball or Net?  
*Ralph Kugler* 5

- Partnership: A Strategic Alliance to Boost Innovation  
*Jean-Julien Baronnet* 9

- Getting the Dirt on Clean—What’s Underneath the Consumer’s “Top of Mind”  
*Marie McNeely* 11

## Session III: The Changing Marketplace

- The Changing Marketplace in Europe  
*Friedrich Stara, Chris Poschik, Fred Schambil, and Siegfried Waldhoer* 16

- The Changing Marketplace in North America  
*J. Keith Grime* 20

- The Changing Marketplace in Latin America/Africa: Low-Income Consumers, The Challenge  
*Robert Davidson* 27

- The Changing Marketplace in Asia—Developed Markets in Japan, Korea, and Taiwan  
*Masaki Tsumadori* 33

- The Changing Market Place in Asia: China, India, South East Asia  
*Aart Weijberg* 38

## Session IV: The Changing Face of Public Regulation for Consumer Products

- Reinventing Strategies to Meet Regional and Global Challenges: Europe  
*Maarten G. Labberton* 42

- Reinventing Strategies to Meet Regional and Global Challenges: Asia  
*Tsuneharu Mukaiyama* 46

- Reinventing Strategies to Meet Regional and Global Challenges-North America  
*Ernie Rosenberg* 52

- The Impact of Environmental Concerns, Energy Requirements, and Water Availability on the Marketplace (Environment and the Marketplace)  
*Hans-Jürgen Klüppel* 56

- The 2002 Johannesburg Summit Industry’s role in Changing Consumption and Production Patterns  
*Cornis van der Lugt* 60

## Session V: Revolution in Raw Materials

- New Ingredients—A Challenge for Detergents of the Twenty-First Century  
*Birgit Middelhuve* 64

- New Technologies for New Product Forms  
*Hans Juergen Degen and Volker M. Schwendemann* 68

- To Bleach or Not To Bleach—New Oxygen-Based Bleach Technology  
*Gerd Reinhardt* 69

- Future Trends with Polymers in Detergency  
*Cedric Geffroy* 75

- Brand-Building with Enzymes  
*Henrik Meyer* 81

- Multifaceted Products, the Changing Face of Rinse and Dryer Cycle Products: Providing an Opportunity for Value Creation via Industry Partnerships  
*Frank Zouras* 84

- Enhancing Fragrance Performance  
*Michael Incorvia, Timothy Young, Raymond Guerry, and Cynthia Mussinan* 87

## Session VI: Changing Elements in Consumer Products

- The Changing Range of Non-Laundry Household Cleaning Products  
*Richard Ellis and Timothy M. Cusack* 91

- Trends in Globalization for Washing Machines  
*Silvano Fumagalli* 98

The Changing Arena of Cleaning Tools and Devices <i>Nigel J. Kermode</i>	101	Speed Does It . . . Driving Discovery with High-Throughput <i>Alessandro Faldi</i>	150
Challenges for the Supply Chain <i>Sandy Rodger</i>	107	For Sale or Rent—Intellectual Capital . . . New Rules, New Opportunities <i>Chris DeBleser</i>	151
<b>Session VII: Evolution in the Surfactants Arena</b>			
The Future of Surfactant Feedstocks <i>Anton Putter</i>	110	<b>Poster Presentations</b>	
The Changing Paradigm in the Surfactant Hydrophobe Structure <i>G. Baillely, J.J. Scheibel, K.L. Kott, R. T. Hartshorn, D.S. Connor, and M. Stalmans</i>	115	Enzymes—Increasing the Efficacy of Detergents and Protecting the Environment <i>Stela Florescu, Minodora Leca, Anca Golgojan, and Gabriela Stoica</i>	154
New Surfactants for New Product Concepts <i>Fred Hessel, Karlheinz Hill, Henk deJonge, Rita Köster, Jutta Stute, and Manfred Weuthen</i>	123	Alkoxylation of an Alcohol and Ester with Three Different Catalysts <i>W. Hreczuch, J. Szymanowski, E. Bialowas, M. Lukosek, and M. Majdan</i>	159
<b>Session VIII: Reinvention of Allied Industries</b>			
Cotton from All Aspects—“From Field to Consumer” <i>Ira Livingston</i>	127	Comparative Evaluation of the Environmental Impact of Fatty Alcohol Ethoxylates and Fatty Acid Methyl Ester Ethoxylates as Nonionic Surfactants <i>I. Szwach, W. Hreczuch, and P. Fochtman</i>	163
New High Tech Textiles—New Benefits for Consumers <i>Juan-Gabriel Aguiriano</i>	130	Static and Dynamic Surface Tension of Ethoxylated Rapeseed Fatty Acid Methyl Esters <i>E. Bialowas, W. Hreczuch, B. Trathnigg, and J. Szymanowski</i>	166
Fabric Color and Lifestyle Trends for Spring/Summer 2004 <i>Janet Holbrook</i>	131	Composition of Ethoxylated Dodecanoic Acid Obtained with Three Different Catalysts as Determined by Means of Liquid Exclusion Adsorption Chromatography (LEAC) <i>B. Trathnigg, W. Hreczuch, J. Szymanowski, M. Lukosek, C. Rappel, and R. Hödl</i>	173
The Future of the Textile Dyestuff Industry and Its Influence on the Detergent Industry <i>Duncan A.S. Phillips</i>	132	Modeling and Optimization of Detergents <i>David Nicolaidis</i>	177
The Professional Industrial and Institutional Cleaning Market—A Case History in the Benefits of Standardization <i>Graeme Armstrong</i>	137	Synthesis of Lipophilic Carboxylic Acid Salts by Saponification and Double Decomposition Reactions <i>Gaëlle Poulenat, Sabine Sentenac, and Zéphirin Mouloungui</i>	182
The Latest in Product Packaging and Design <i>Günther Lehner</i>	139	Fluorescent Whitening Agent FWA-5—Modeling of the Environmental Concentrations from Northern to Southern European Countries <i>Peter Richner and Juergen Kaschig</i>	187
<b>Session IX: Disrupting Paradigms in the Detergent Industry</b>			
The Connected Home <i>Per Ljunggren</i>	140	Novel Light Stabilizers Matching the Formulators Needs <i>O. Reich and M. Schork</i>	192
Formulation: From Art to Science <i>A.G. Schlijper</i>	145	Modification of Surfaces with Polymers <i>C. Geffroy and Eric Aubay</i>	193
Drowning in Data but Thirsting for Knowledge <i>Jan J. Lerou</i>	146		
Smaller Is Better . . . Nanotechnology Is Disrupting the Future <i>Gerhard Jonschker</i>	147		

Sun Protection in Laundry Products—Innovative Science and Creative Effects Applied to Improve the Quality of Life and Health <i>N. Spillmann</i>	197	Trends in Soap and Detergent Products in the Iranian Market <i>Farrokh B. Malih</i>	227
Modern Methods on Whiteness Evaluation <i>C. Puebla and R. Olmedo</i>	198	Different Physical Forms of Detergent Products: An Overview <i>N. Mohapatra and R.P. Singh</i>	232
Amino Acid Surfactant Derived from Cottonseed Protein Used as Phosphate-Free Compact Detergents <i>Jiding Xia and Junhong Qiun</i>	199	Enzymes Give Detergent the Deep Clean Label <i>M. Bollier</i>	233
Thermal and Light Stability of FWA 4,4'-Bis-(sodium o-sulfonate-2-styryl)-biphenyl <i>Y. Sasson, M. Grabarnik, S. Yehuda, and O. Toledano</i>	200	Anaerobic Biodegradation: Effect of Surfactants on Structure and Function of Anaerobic Compartments <i>José Luis Berna, Diederik Schowanek, Nigel Battersby, Luciano Cavalli, Richard Fletcher, Andreas Guldner, and Josef Steber</i>	234
Surfactant Raw Material Technology Development <i>L. Erickson</i>	203	Anaerobic Biodegradation: Mass Flux Aspects and Environmental Relevance of Surfactants <i>Diederik Schowanek, Nigel Battersby, Luciano Cavalli, Richard Fletcher, Andreas Guldner, Josef Steber, and José Luis Berna</i>	235
Performance of Palm Stearin Based Methyl Ester Sulfonate <i>S.A. Ahmad and Z.I. Ismail</i>	204	Results and Conclusions of the HERA—LAS Report <i>J.L. Berna</i>	236
Surface-Film Properties of the Surfactant Used for Alkaline-Surfactant-Polymer Combination Flooding <i>Kang Wanli, Gao Huimei, Liu Yongjian, Liao Guangzhi, and Liu Yi</i>	205	Are Surfactants Responsible for Sewage Sludge Quality? Facts and Figures Regarding the Occurrence, Fate, and Behavior of LAS in Sludge and Soil <i>J.L. Berna, A. Moreno, J. Ferrera, A. Zatta, and G. Cassani</i>	237
Divergent Surfactant Systems for Household Product <i>Felix Müller and Jörg Peggau</i>	208	Starch-Based Polymers—As Surfactants <i>B.B. Gogte, S.L. Pandharipande, and Y.P. Baadhe</i>	238
Rapid Determination of Alkylene Oxide Polymerization Kinetic Parameters Using High-Throughput Tools <i>Robert H. Whitmarsh, Cesar Gonzalez, Kevin P. Peil, and Peter N. Nickias</i>	212	Synthetic Detergent Alcohol Derivatives as Suitable Alternative Raw Materials for Personal-Care Product Formulations <i>J.E. Carty, C.A. Burnley, L.L. Garza, K.H. Raney, P.L. Tortorici, R.J. Wiersma, and W.W. Schmidt</i>	239
Advantages of Branched Secondary Alcohol Ethoxylates <i>Albert F. Joseph</i>	216	Saving Resources in the Manufacture of Detergent Powders <i>Arkady Cherepanov</i>	240
Detergent Evolution with Enzymes <i>Randall S. Deinhammer, Carsten Lauridsen, Ture Damhus, Signe Munk, Stig Traff, Niels Munk Ryom, Thomas J. Burns, and Jun Deng</i>	220	Second-Generation Disintegrants for Household Tablets <i>S.A. Papoulias, B. Srinivas, R. Gibbison, J.J. Gulka, and J. Virgoe</i>	247
An Enzyme-Linked Immunosorbent Assay (ELISA) for Detection of Surfactants (LAS, APE, and AE) and Its Applications <i>K. Kitaoka, M. Hirobe, A. Kobayashi, Y. Gouda, S. Fujimoto, M. Ike, M. Fujita, and M. Katayama</i>	224	Development of a Laboratory Information Management System (LIMS) Applied to the Analysis of Detergent Samples <i>Daniel Frauchiger, Marie-Michelle Janssoone, Reto Bühlmann, and Jorge Carmona</i>	251
International Safety Assessments of the LAS Product Chain <i>J.E. Heinze and H.P. Toner</i>	225	Commercialization of Methyl Ester Sulfonates <i>Norman Foster</i>	252
Out-Gas Control Technique Based on the Results of Sealants Analysis <i>K. Suga, A. Kikkawa, and K. Kimura</i>	226
