

CONTENTS

	Page
1. Introduction	1
2. Surface Activity	5
3. Physical Properties of Emulsions	46
4. Theory of Emulsions : Stability	85
5. Theory of Emulsions : Creaming, Inversions, and Demulsification	134
6. The Chemistry of Emulsifying Agents	166
7. Techniques of Emulsification	209
8. Emulsion Applications	245
9. Demulsification	285
Appendices	299
Index	372
