

CONTENTS

	Page
1. Aqueous Phase Science of Cationic Surfactant Salts	1
2. Micellization of Cationic Surfactants	41
3. Adsorption of Cationic Surfactants at Interfaces	87
4. Caationic Surfactants in Mixed Surfactant Systems	141
5. Interactions Between Polymers and Cationic Surfactants	189
6. Penetration of Insoluble Monolayers by Cationic Amphiphiles	249
7. Chemical Reactivity in Micelles and Similar Assemblies of Cationic Surfactants	323
8. Adsorption of Cationic Surfactants and the Flotation of Minerals	407
9. Fabric Softening	449
10. Surface-Active Cationic Compounds in Detergency	469
Index	509
