PAGE NO:

INNOVATION

Innovative Approaches to Surfactant Development D.R. Karsa	1
Biosurfactants - an Overview I.D. Robb	22
Formation and Commercial Applications of <i>Organic</i> Ultrathin Films J.H. Harwell and E.A. O'Rear	36
Polymeric Surfactants - Properties and Applications G. Bognolo	52

ANIONIC SURFACTANTS

Ethercarboxylates for Industrial and Institutional Applications E. Stroink	62
Trends in the Application of Sulphosuccinate Surfactants J.A. Mi —	76
Industrial Applications of Surfactants Derived from Naphthalene T. Mizunuma, M. Iizuka and K. Izumi	101
Preparation and Industrial Applications of Phosphate Ethers S.L. Paul	114

NONIONIC SURFACTANTS

The Preparation and Applications of Alkanolamides and their Derivatives B. Shelmerdine, Y. Garner and P. Nelson	132
Acetylenic Glycols and Derivatives H.P. Kleintjes and J. Schwartz	150

CATIONIC AND AMPHOTERIC SURFACTANTS

Quaternary Salts as Phase Transfer Catalysts C.M. Starks	165
An Overview of the Biocidal Activity of Cationics and Ampholytes B. Davis and P. Jordan	195
Amine Oxides and their Applications H. Röhrig and R. Stephan	211
Optimisation of the Performance of Quaternary Ammonium Compounds R.A. Stephenson	235

APPLICATIONS

Surfactants for Agrochemical Formulation P.J. Mulqueen	276
Factors Affecting the Activation of Foliar Uptake of Agrochemicals by Surfactants P.J. Holloway and D. Stock	303
Cationic Surfactants in Road Construction and Repair A.D. James and D. Stewart	338
Surfactants in the Paper and Board Industry R.A. Morland and N. Morgan	356
Use of Surfactants in Mineral Flotation F.J. Kenny	366
