

Contents

Overview: A Decade of Change in the Surfactant Industry <i>D.R. Karsa, R.M. Bailey, B. Shelmerdine and S.A. McCann</i>	1
Surfactants in the Environment – An Overview <i>H. Thomas</i>	23
The Surface Active Agents Market: Where Is It Moving? <i>G. Bognolo</i>	40
Hydrotropes and Their Applications <i>E. Fairchild, J.A. Komor, A.J. Petro and G.T. Baird</i>	50
The Use of Amphoteric Surfactants to Utilise Imidazolines in Industrial Detergents <i>D. Homer and P. McCormack</i>	63
Application of Sucrose Fatty Acid Esters as Food Emulsifiers <i>S. Nakamura</i>	73
Use of Mixtures of Alkyl Alkoxylates and Alkyl Glucosides in Strong Electrolytes and Highly Alkaline Systems <i>I. Johansson, C. Strandberg, B. Karlsson, G. Karlsson and K. Hammarstrand</i>	88
A New Surfactant Made from Kelp Seaweed <i>M.E. Levey, E.B. Revell, R. Dahm and V. Machowski</i>	108
Starch-derived Products in Detergents <i>R. Beck</i>	117
The Properties and Industrial Applications of N-Acyl ED3A Chelating Surfactants <i>J.J. Crudden</i>	130
Gemini Surfactants <i>M.J. Rosen</i>	151

Nonionic Surfactants: Achieving the Balance between Performance and Environmental Properties <i>H.R. Motson</i>	162
HLB, Is It a Valuable Concept or a Curiosity? <i>T.G. Balson</i>	175
Surfactants Derived from Secondary Alcohols <i>K. Rakutani, Y. Onda and T. Inaoka</i>	193
Sulphobetaines and Ethersulphonates: Unique Surfactants via Sulphopropylation Reactions <i>P. Koberle</i>	213
Alkyl Phosphates as Cosmetic Emulsifiers: A Contribution to Non-ethoxylated Emulsifiers <i>R. Aigner, M. Löffler, A. Overweg and A. Turowski</i>	227
The Application of Surfactants in Preventing Gas Hydrate Formation <i>N.J. Phillips and M.A. Kelland</i>	244
Influence of a Silicone Surfactant Structure on the Burning Behaviour of Polyurethane Foam <i>A. Weier, G. Burkharr and M. Klincke</i>	260
Application of Surfactants in the Textile Industry <i>P. Mallinson</i>	272
Subject Index	279
