

CONTENTS

| | Page |
|--|------|
| Part I Aggregation of Surfactants, and Structure, Dynamics And Characterization of Micelles | |
| Physical Principles of Surfactant Self-Association Into Micelles, Bilayers, Vesicles and Microemulsion Droplets | 3 |
| Statistical – Thermodynamic Theory of Surfactant Organization in Micelles and Bilayers | 35 |
| Model For Thermodynamics of Ionic Surfactant Solutions: Enthalpies, Heat Capacities, Volumes, Expansibilities, and compressibilities | 55 |
| Model For Thermodynamics of Ionic Surfactants: Effect of Electrolyte on Osmotic and Activity Coefficients | 69 |
| Thermodynamic Behaviour of Sodium Deoxycholate, Sodium dodecylsulphate and Sodium Tetradecylsulphate Micellar Solutions | 77 |
| Molar Volumes of Cationic Surfactants in KCl and NaCl Concentrated Salt Solutions | 91 |
| Excimer-Monomer Emission in Alkylbenzenesulfonates: A New Technique for Determining critical Micellar Concentrations | 103 |
| Dynamics of Organized Assemblies in Solution | 115 |
| Micelle Structure in Aqueous Solutions of Polyoxyethylene Surfactants | 131 |
| Neutron and X-Ray Comparative Study of Direct Ionic Micelles | 141 |
| Small-Angle Neutron Scattering From Aqueous Solutions of $C_{12}E_6$ and $C_{12}E_8$: Critical Fluctuations and Micellar Growth | 155 |
| Positronium Diffusivity – and Lifetime Parameters and the Micellar Structure in Aqueous (D_2O) Solutions | 179 |
| Raman Scattering in Aqueous Solutions of Sodium Dodecyl Sulfate | 189 |
| The Influence of Electrostatic Repulsions on Micellar Diffusivities Obtained by dynamic Light Scattering: Experiment vs. Theory | 203 |
| Quasielastic Light Scattering on Tetradecyltrialkylammonium Bromide | 217 |
| Effect of Electrolytes and Hydrocarbons on the Cloud Point Transition of $C_{12}E_8$ Solutions | 233 |
| Structural and Dynamic Consequences of Amphiphile Hydration: Their Origin and Analytical Molecular Force theory | 243 |
| Electron Spin Echo Modulation Studies of Doxylstearic Acid Nitroxide Spin Probe Locations in Micelles | 253 |
| Critical-type Behavior and Micellar Growth Observed in an Ionic Surfactant / Salt System | 263 |

| | |
|---|-----|
| Perturbation of Micellar Size and Charge by Addition of t-Amyl Alcohol | 271 |
| Anionic Surfactants with divalent Gegenions of Diffuse or Separate Electric Charge: Solubility and Micelle Formation | 289 |
| Effect of Alcohol and Oil on the Dynamic of Micelles | 299 |
| Structural Changes in Aqueous Micellar Systems of an Anionic and a Cationic Surfactant | 309 |
| Scaling Laws in Semi-Dilute Aqueous Solutions of Alkyltrimethylammonium and Alkylpyridinium Bromides | 317 |
| Effect of Added Oil on Aqueous Alkyltrimethylammonium Bromide Micelles in the Presence of Alcohol | 325 |
| Influence of Dissolved Additives on the Critical Micellar Concentration of Surfactants | 333 |
| The Influence of solubilized Additives on Surfactant Solutions Containing rodlike Micelles | 343 |
| The Interaction of 2-Naphtholate Ion With Some Cationic Surfactants in Aqueous Solution | 363 |
| Strengthening of Hydrophobic Bonding and the Increase in the Micellar Degree of Ionization In Cetyltrimethyl-Ammonium Bromide Aqueous Solutions by Amphiphiles and the Micelle-Water Distribution Coefficient | 375 |
| Nonideality of Mixing of Micelles | 383 |
| Mixed Micelles of Dodecyltrimethylammonium Bromide with Sodium Dodecyl Sulfate Studied By ESR of Nitroxide Probes | 393 |
| Mixed Micelle Structure: Cosurfactant and Charge Influence | 405 |
| Proton Correlation Studies on the Micelles of a Poly(Oxyethylene)-Poly(Oxypropylene) – Poly(Oxyethylene) Block Copolymer in Aqueous Solution | 419 |
| Part II Phase Diagrams and Phase Behavior of Surfactant Solutions | |
| On the Theory of Micellar size in Isotropic and Nematic Surfactant Solutions | 429 |
| Applications of Catastrophe Theory to Surfactant-Oil-Brine Equilibrated and Emulsified Systems | 439 |
| Molecular order and Dynamics in Short Chain Alkylphosphate/Water mesophases | 449 |
| Critical Fluctuations, Micelle Kinetics and Phase Diagram of Water – Nonionic Surfactant, H ₂ O - C ₁₂ E ₆ | 465 |
| Modelling of Phase Behavior of Micellar Systems Used for Enhanced oil Recovery | 473 |
| Staining and drying-Induced Artifacts in Electron Microscopy of Surfactant Dispersions: III: Evidence from optical microscopy and a Negative Staining Case | 489 |
| Phase Behavior of SDS/AOT/Water systems | 501 |
| Aggregation and Dynamical Behavior in Sodium Diethylhexyl Phosphate/Water/Benzene Inverted Micelles | 511 |
| Three Dimensional Phase Diagram of Nonionic surfactants: Effect of Salinity and Temperature | 525 |
| Water Dynamics in Micellar and Lyotropic Phases of the Dodecylammonium Chloride/ D ₂ O System by ² H and ¹⁷ O Nuclear Magnetic Relaxation | 537 |

| | |
