

CONTENTS

	Page
Symposium – Ethylene Oxide Based Surface Active Agents	1
Acknowledgement	1
Opening Remarks	1
Alkylphenol-Ethylene Oxide nonionic Surfactants	2
Alcohol-Ethylene Oxide and Related nonionics	5
Tall Oil – Ethylene Oxide Nonionic Surfactants	8
Thioether-Type Nonionics	10
Ethylene Oxide Adducts of High molecular Weight Amines	12
Polymeric Ethylene Oxide nonionic Surfactants	15
Closing Remarks	17
Symposium on analytical Methods for Surfactants	18
Introduction	18
Opening Remarks	18
The Analysis of Alkylbenzene Sulfonates	19
The Analysis of Alkyl Sulfates	23
Analysis of High Amide Fatty Alkanolamides	28
Analysis of Nonionic Surface Active Agents	31
Symposium on Nitrogen-Containing Surfactants	35
Introduction	35
Opening Remarks	35
Alkylolamides	36
Sulfonated-Amide Anionic Surfactants	37
Amphoteric Surface Active Agents	40
Cationic nitrogen-Containing Surfactants	42
Symposium on Use of Anionic Surface Active Agents	44
Introduction	44
Opening Remarks	44
Anionic Surface Active Agents in Heavy Duty Household Detergents	45
The Use of Anionic Surface Active Agents in Light Duty Detergents	48
The use of Anionic Surface Active Agents in Toiletries and Cosmetics	50
Anionic Surface active Agents in Heavy Duty Industrial Cleaners	57
Anionic Surfactants in the Textile Industry	57
