

CONTENTS

	Page	
Chapter 1	History of Glycerol	1
Chapter 2	Physical Properties	3
Chapter 3	Chemical Properties	44
Chapter 4	Biochemistry of glycerol	74
Chapter 5	Analytical methods for glycerol	93
Chapter 6	Production of glycerol from natural fats and oils	114
Chapter 7	Production of glycerol by petrochemical methods	150
Chapter 8	Production of glycerol by hydrogenolysis	155
Chapter 9	Production of glycerol by fermentation	161
Chapter 10	Uses of glycerol	167
Chapter 11	Statistics on glycerol Production	233
Chapter 12	The problem of substitutes	237
Chapter 13	additional literature	239
Chapter 14	General literature	294
Index		297
