

CONTENTS

	Page
PART A: NATURAL GUMS	
GENERAL	
Chapter 1 Factors Influencing Gum Costs and Applications	2
Chapter II Solute-Solvent Interactions in Polysaccharide Systems	19
SEAWEED EXTRACTS	
Chapter III Agar	29
Chapter IV Algin	49
Chapter V Carrageenan	83
Chapter VI Fucoidan	115
Chapter VII Furcellaran	123
Chapter VIII Laminaran	137
Chapter IX Seaweed extracts of Potential Economic Importance	147
PLANT EXUDATES	
Chapter X Gum Arabic	197
Chapter XI Gum Ghatti	265
Chapter XII Gum Karaya	273
Chapter XIII Gum Tragacanth	289
SEED GUMS	
Chapter XIV Guar Gum	303
Chapter XV Locust Beam Gum	323

Chapter XVI Quince Seed, Psyllium Seed, Flax Seed, and Okra Gums	339
Chapter XVII Tamarind	369
Chapter XVIII Larch Arabinogalactan	415
Chapter XIX Pectin	429
ANIMAL EXTRACT	
Chapter XX Chitin	465
PART B: PREPARED GUMS	
BIOSYNTHETIC GUMS	
Chapter XXI Xanthan and Some Other Biosynthetic Gums	473
Chapter XXII Scleroglucan	499
Chapter XXIII Dextrans	513
STARCH FRACTIONS AND DERIVATIVES	
Chapter XXIV Starch Amylose	545
Chapter XXV Starch Amylopectin (Waxy Corn and Waxy Sorghum)	567
Chapter XXVI Starch Dextrins	577
Chapter XXVII Starch Hydroxyethyl Ethers and Other Starch Ethers	601
CELLULOSE DERIVATIVES	
Chapter XXVIII Methylcellulose and Its Derivatives	619
Chapter XXIX Hydroxyalkyl Derivatives of Cellulose	649
Chapter XXX Ethylhydroxyethylcellulose	673
Chapter XXXI Sodium Carboxymethylcellulose	695
Author Index	731
Subject Index	772
